

ASD ASTROS PORCIA BASEBALL

SUMMARY OF THE COVID-19 FIBS BEHAVIOR PROTOCOL FOR PRACTICE

Risk assessment

Knowledge and acceptance of COVID-19 risk by participants in the competition. Completion, subscription and delivery of the form.

Alcohol-based gel or spray will be positioned both outside and inside the court (dugouts / benches, toilets) along with containers/bags for collection of disposable glasses. Temperature will be checked with Digital thermometer on arrival at the field. Sanitation of environments after each use. Sanitation of common game material (balls excluded). Public and non-registered individuals who do not actively participate in sports are not allowed.

Players, technicians, operators

Temperature screening on arrival to the field for everyone. 37.5 ° + will be excluded from the area. Beverage containers, helmets and other exclusively personal protective materials, including receiver protective material require personal sanitation. Shared game material will be sanitized before being used by a new person. When not in use, clothing and play equipment must be placed in closed individual bags. At the end of training, any game clothing used must be placed in a closed plastic bag.

Dugout

You can stay in the dugout, respecting the minimum distance required. If there is not enough space, a parking space outside the dugout will be identified (possibility of using the bullpen). Use of the mask in the dugout (surgical type). When touching items in restroom (handles, knobs, and other surfaces) handled with gloves, wipes, or other disinfectant material present.

Bullpen

It can be used as a parking space for players who cannot stay in the dugout, always keeping the right distances and with surgical mask.

No use of tobacco, seeds (i.e. sunflower seeds) and similar products, for everyone.

It is forbidden to spit anywhere on the field, including when handling the ball. Do not spit on your gloves and handle the ball, anywhere on the field.

Changing rooms, bathrooms, showers

Changing rooms and showers cannot be used. Bathrooms can be used keeping safety distances, with access to the premises of not more than one person at a time. When touching items in restroom (handles, knobs, and other surfaces) handled with gloves, wipes, or other disinfectant material present.

Society

Responsibility for setting up and checking for compliance with the above safety behaviors.

Senior executives

They have the task of coordination so that everything takes place according to the behavioral rules indicated above.
